About Sempli

Sempli is an award winning product design company located in Los Angeles, California whose designs take you for a spin. Sempli's design philosophy is deeply rooted in the founder Daniele 'Danne' Semeraro's dual heritage by combining the best of two countries - Sweden's simple functionality with Italy's style and elegance.

Sempli. Swedish functionality - Italian design

While living in Florence, Italy, Semeraro discovered the essential role the wine glass played in the drinking experience. He then conceived the idea for the stemless Cupa-glass series, spawning the growing collection of Sempli products.

About our glassware

Staying true to the craft, Sempli glassware is hand blown by talented and experienced glass blowers.

Each piece is mouth-blown from sustainable lead-free crystal to highlights the color of the beverage, which is especially important for wine, liquors and beer.

Due to the handmade nature of our glasses, variations in thickness and small bubbles may occur, which makes each piece beautifully unique. The hand-blown process gives each piece an elegant feel.

MONTI COLLECTION

Sempli is proud to introduce both Monti- Aqua Mare and Monti-Aqua Terra. Taking our beloved and best selling water glasses, we have re-imagined the set as two multi colored series.

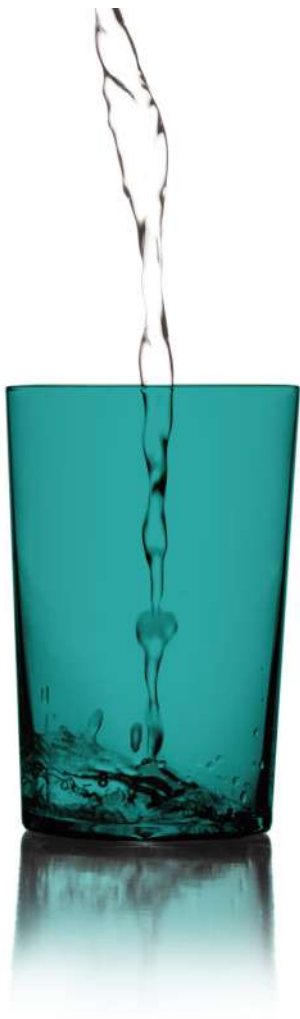

For Monti-Aqua Mare, we drew inspiration from the “mare” meaning ocean in Italian. Each cool tone creates a complementary and cohesive set. These glasses will add a serene and sophisticated touch to any table to create a refreshing and tranquil atmosphere.

For Monti-Aqua Terra, we drew inspiration from the “terra” meaning earth in Italian. Each warm tone creates a complementary and cohesive set. These glasses will add a warm and sophisticated touch to any table to create a cozy ambiance.

With the Monti-Aqua, we set out to design a sturdy water glass that would be utilitarian yet reflect the elegance and unique design aesthetic Sempli stands for. Being the first stackable glasses in Sempli's collection, it makes the Monti-Aqua perfect for both casual entertaining and everyday use. The Monti-Aqua stackable water glasses are handmade to ensure the right thickness for a clean, modern look and lightweight durability. Holding water with ease, you can use them for serving everything from juices and milk to your favorite spirits and cocktails.

RADIO COLLECTION

Introducing the Radio Collection - where industrial chic meets wavy sensuality. The brand new Radio Collection, inspired by the symmetrical form of radio frequency waves reminiscing the era of Edison and Marconi mixed with the curious aesthetics of classic radiators, it fused the two eras together with exquisite design to bring an audacious edge to your bar. With its distinctive silhouette yet subtle blend of geometry and curves, the Sempli Radio collection is not just glassware - it's a conversation starter. Elevate your entertaining style and indulge in the raw yet sophisticated allure of the Radio Collection.

It's where industry meets elegance; it's where your bar comes to life. This hand-blown process gives each piece an elegant feel with superior clarity to highlight the color of each beverage.

MONTI BEER COLLECTION

We set out to create the ultimate beer glasses which celebrate the individuality and diversity of the craft beer world.

The collection stemmed from the original Monti-Birra, a glass made to hold your favorite 12 oz beer. The Monti-Pint has a similar design only slightly larger, 16 oz, perfectly measured for larger pours. For Pilsners, we created the Monti-Pils with a slender tall body that enhances the carbonation in these beers and helps maintain a longer effervescence. For the Monti-IPA, we studied and developed the shape of the glass to promote the aeration of these hoppy brews; as the liquid is poured it is taken on a mini roller coaster ride down the glass.

The conical inverted bottom of the glass follows the distinct form of Sempli's products; it catches the initial splash of your pour and gently leads the head of foam up to the surface.

Every glass is mouth-blown from lead-free crystal; this highlights the color of each beer. With the Monti- Taste Collection, we invite you to discover the craft brewing culture for yourself and have your own Sempli experience.

Monti-Rosso
(MONROBB2)
Set of 2 red wine glasses

As a part of the popular Monti Collection, we created a series of wine decanters and glasses to fit any occasion.

Each piece and its center showcases the inspiration of the Italian Alps. When red wine is poured into the decanters and Monti-Rosso, the oxygen exposure allows the flavors to develop in seconds, not years, so you get a brighter bouquet and clearer tasting notes. While pouring, the wine falls on top of the peak and aerates in a beautiful cascade down its sides.

Monti-Rosso and Monti-Bianco are designed to hold red and white wine respectively. Both glasses comfortably hold a standard 5oz pour, which measures just above the waist of each glass, but easily holds up to 12oz if filled up.

For champagne and other bubbly beverages, the Monti-Flute comfortably holds 6 oz. The conical inverted bottom of this glass catches the initial splash of your pour and gently leads the head of foam up to the surface.

Monti-Sonno Set
(MONSNSE)
1 water carafe + 1 glass

In addition to wine and beer, the Monti Collection includes our best selling shot and water glasses. The Monti-Aqua are our first stackable glasses in our collection, making it perfect for both casual entertaining and everyday use. To pair with the Monti-Aqua, our Monti-Sonno Set doubles as both a harmonious and functional bedside carafe, as well as an elegant beverage server in the dining room.

Recently, the ever expanding bar line of Sempli products gets a neat addition in the Double Old-Fashioned and Single Old-Fashioned glasses. A modern take on these traditional staples is ready for both true and tried classic cocktails as well as more elaborate modern creations. These are Sempli's way of elegantly elevating any restaurant setting or home bar.

With its concave custom molded ice cubes, the Nix, Latin for snow, bridges the gap between large cubes and perfectly balanced chilling of any spirit enjoyed on the rocks. The concave base of the ice fits seamlessly on top of the peak shaped bottoms of both the Monti-SOF and DOF.

INCANTER

Choose, Infuse, Use!

Simply, fill the glass decanter with desired liquor. Choose your favorite infusion ingredients and insert them into the infusing tube. Cap tube with the silicone stopper, insert into decanter, and spin away! Let the flavors fuse together to create a unique experience with each use! Spin your Incanter for some fun or let it rest on the felt coaster for longer infusions.

This infusion bottle will entertain your dinner party guests and impress them with your homemade liquor. Use the Incanter for alcohol infusions, fruit infused water, herb-infused oils, and so much more.

Created with the signature spinning bottom, Sempli has imagined a new way to infuse your favorite spirits. The Incanter is an infuser made from lead-free crystal glass that will allow you to make your own liquor infusion with any ingredients you like. From the strawberry infused vodka and peach infused bourbon to gourmet raspberry vinaigrette salad dressing, the possibilities are endless.

At Sempli we are always evolving while staying true to our dedication to simplicity and elegance. Our first stemware collection has finally arrived and is unparalleled in quality and craftsmanship. Each glass is individually hand-blown with the stem and foot expertly shaped from one single piece of glass. Our artisan glass masters meticulously follow over 30 steps to create each piece of Sempli stemware. From the first touch you'll immediately notice the quality and after the first pour to the moment the diamond cut polished edge touches your lips you'll discover the subtle elegance that makes the Sempli stemware so unique.

By honing in on a few key shapes and our favorite silhouettes we've created an exceptional wine experience that compliments and enhances the tasting notes of the different varieties. We carefully designed our stemmed collection with attention to shape, size and proportion to elevate every wine experience.
